Supporting Synopsis :

This conversation shows a wonderful relationship between two loving brothers, Neil and Mark. The reason why I have chosen it was the incredibly honest and sweet nature of the two and their eagerness to protect each other. It shows that despite Mark being different than other people, his well-being is always the primary goal for his older brother. I wanted to show that strong connection in my animation, while also adding a little twist as they are frogs from a far away and colourful land.
